

Improving Profits by Improving Performance

Executive & Team Coaching, Strategic Planning, Business Operations Consulting

Success is measured in many ways. One of the most important is whether you've achieved your goals.

Define your goals and develop a clear plan to reach them; this is your path to greater success.

My role is to work with you, challenge and question you, guide you, and support you as you define, then achieve, your goals.

Services

Coaching

Executives and small business owners perform better when they have trusted, confidential advisors that support them. I'll be your confidant and counsel.

Teams, including multi-cultural and multi-disciplinary, can achieve their goals more effectively when they have guidance from someone experienced in the dynamics of these environments. I have that experience.

Planning & Operations

Develop a plan and use the tools and methodologies necessary to execute it. It sounds easy, but it's not. Targets are more likely to be reached when you have an experienced advisor at your side.

Experience

Steve Novak has over 30 years of experience improving the performance of organizations in a wide variety of industries; from food and cosmetics to utilities and construction contracting.

Steve will tell you what you need to hear, not just what you want to hear.

Systems & Methods

Process Improvement

Lean Management

Six Sigma

Quality Management Systems

Education

Supply Chain Solutions

Project Management

Interim Management Services

Small Business Solutions
